Astronauts reach station

SPACE CENTER, Houston—The US spacecraft Discovery moved closer to the international space station on Thursday and was to perform an unprecedented back flip before docking to allow photographs of the shuttle's belly for signs of damage.

Discovery trailed the space station by less than 1,000 km early Thursday and was expected to perform the flip around 1100GMT. Docking was set for an hour later.

The move follows a huge setback on Wednesday, when Nasa decided to ground future shuttle flights because a chunk of insulating foam flew off Discovery's fuel tank during liftoff—as it did in Columbia's doomed mission. This time, the foam apparently missed the spacecraft.

Discovery was the first shuttle to return to orbit in the two and a half years since Columbia broke apart over Texas as it returned to Earth on Feb. 1, 2003. All seven astronauts aboard died.

The space agency believed it had solved problems associated with the foam.

OPINION

Finally, GMA does the right thing

Arturo M. Reyes

Devotion man

JUSTICE DEPARTMENT SECRETARY ALDO REYES, who is a devout Catholic, has been accused of being a "devotion man" who is more concerned with his own religious beliefs than with the interests of the country. This accusation is based on his recent statement that he would not sign a bill that would allow the use of force to suppress religious freedom.

Reyes' statement is a clear violation of his duty as a public official. He is a member of the government and is responsible for the interests of the country. He should not be allowed to use his position to promote his own religious beliefs.

Christlike dance of maneuvered hopes

FRANCIS
POY-REYES

The Christlike dance of maneuvered hopes is a performance that is often seen in the lives of people who are seeking to live a Christian life. It is a dance that is full of hope and faith, but it is also a dance that is full of maneuvering and manipulation. The people who perform this dance are often people who are seeking to live a Christian life, but they are also people who are seeking to manipulate the lives of others.

Ghosts of aborted Erap impeachment trial haunt Congress

By Harold Lee Miao

MANILA, May 16 (AP) — The Philippine Congress is expected to vote on a resolution to impeach President Gloria Macapagal Arroyo on Tuesday, but the move is being seen as a political maneuver to oust her from office. The resolution, which was introduced by a coalition of lawmakers, is expected to pass, but it is unclear whether it will lead to a full impeachment trial. The move is being seen as a political maneuver to oust her from office.

Lawmakers in the Philippine Congress are expected to vote on a resolution to impeach President Gloria Macapagal Arroyo on Tuesday.

Protesters in Manila are seen holding a sign that reads "NOT TO GMA JUV FURS CONASS!" during a demonstration against the proposed impeachment trial of President Arroyo.

Ex-governor to testify on 'Jueteng-gate'

MANILA, Philippines — A former governor of a Philippine province is expected to testify in court regarding alleged involvement in a gambling scandal known as 'Jueteng-gate'.

The case involves allegations of illegal gambling operations and the role of local government officials. The former governor, who served from 2010 to 2013, is accused of allowing and possibly participating in large-scale illegal gambling activities in his province.

The scandal has drawn significant public attention and scrutiny from the Department of Justice. The former governor's defense team has argued that the allegations are unfounded and that he was not involved in the operations.

The case is currently pending trial, and the former governor's testimony is expected to be a key element in the proceedings. The Department of Justice has expressed confidence in the legal process and the ability to bring the case to a successful conclusion.

GMA finds comfort zone outside Metro

MANILA, Philippines — GMA Network Inc. has found a comfortable zone outside Metro Manila, according to a recent report. The network's reach and popularity have expanded significantly beyond the capital region, particularly in the provinces.

The report highlights GMA's strong performance in the regional markets, where it has established a solid presence and a loyal audience. This success is attributed to the network's commitment to providing high-quality programming and its extensive distribution network.

GMA's regional stations have been instrumental in this growth, offering viewers a mix of local news, entertainment, and lifestyle programs. The network's ability to connect with diverse audiences across the country is a testament to its strategic vision and operational excellence.

The report also notes that GMA's digital presence has grown, with a significant increase in website traffic and social media engagement. This digital expansion has further solidified GMA's position as a leading media organization in the Philippines.

47% of Filipinos don't like GMA - Pulse Asia

MANILA, Philippines — A recent survey by Pulse Asia revealed that 47% of Filipinos do not like GMA Network Inc. The survey, which was conducted across the country, found that GMA's image and popularity have declined significantly in recent years.

The survey also found that 47% of Filipinos do not like GMA, while 53% do. This represents a significant shift in public opinion, particularly in the capital region where GMA has traditionally been a dominant force.

The decline in GMA's popularity is attributed to several factors, including a perceived lack of innovation in its programming and a decline in the quality of its news coverage. The survey also found that GMA's image has become more negative, with a higher percentage of respondents viewing the network as corrupt and dishonest.

GMA's management has responded to the survey results by expressing concern and a commitment to improving the network's image and programming. They have announced plans to launch new shows and initiatives to engage with the audience and rebuild trust.

President says sorry for media snafu

MANILA, Philippines — President Duterte has expressed regret for a media snafu that occurred during a recent event. The President, who is known for his candid and often controversial remarks, apologized to the media for a perceived misstatement or misunderstanding.

The incident involved a comment made by the President during a press conference, which was interpreted as a criticism of the media. The President's spokesperson clarified that the comment was not intended to be a criticism and that the President was simply expressing his frustration with the media's coverage.

The President's apology was seen as a gesture of goodwill and an attempt to mend relations with the media. The media has responded positively to the apology, noting that the President's remarks were a reflection of his personality and not a deliberate attack.

The incident has sparked a debate about the President's communication style and the role of the media in a democratic society. Some argue that the President's candidness is a strength, while others believe it can be a liability if it leads to misunderstandings and conflicts.

Parañaque fetes 'late' adopted son

By James E. Uy
 MANILA (PNA) — Parañaque City officials and residents gathered at the city hall to celebrate the 10th anniversary of the city's adoption of a late son, a former mayor who died in a plane crash. The celebration was held in a grand hall, with many guests and a large display of the city's flag. The late mayor, who was a well-known figure in the city, was remembered for his contributions to the community and his leadership. The city officials expressed their pride in having adopted him as their son and their commitment to continue his legacy.

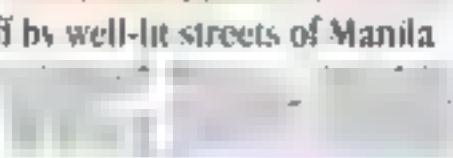

Camia garbage site closed

In the city of Camia, a garbage site has been closed due to health concerns. The site, which had been used for dumping waste for many years, was found to be a source of contamination and posed a significant risk to the local population. The city government has taken immediate action to close the site and has initiated efforts to relocate the waste to a proper disposal facility. The closure is expected to improve the health and safety of the community.

Criminals turned off by well-lit streets of Manila

By James E. Uy
 MANILA (PNA) — The well-lit streets of Manila have turned out to be a deterrent for criminals, according to a recent study. The study found that areas with better lighting had lower rates of crime compared to darker areas. This has led to increased efforts by the city government to improve street lighting in various parts of the city. The findings suggest that proper lighting can play a significant role in crime prevention and public safety.

FINANCE Secretary Margaret Davis has given the Bureau of Internal Revenue a thumbs up to provide the data the Department of Justice needs to get IRS evaluation moving in the courts.

The DOJ and the BIR have filed about 30 civil lawsuits over with the DOJ, under the Anti-Deficiency Exemption Program (ADEP), the information that is required to get the IRS to file suit. The IRS has filed every week.

The IRS has the program in place in March the DOJ has filed a suit to get the IRS to file a suit.

did occur have to borrow \$1.22 million in housing loan from a bank, which is a violation of the 2003 appointment.

Even better, a year after the loan had paid only the grand sum of \$57,857 for the loan.

As for the loan, it would take more than 25 years to fully amortize the loan, according to GMA, and most likely the loan will be his brother, Michael Rep. Thomas Cavallaro.

As a result, the authors conclude that the use of a single, standard, and simple questionnaire is not sufficient to assess the impact of the intervention on the community. The authors suggest that a more comprehensive and detailed assessment of the impact of the intervention on the community is needed.

The authors reported a statistically robust finding: people who were on the waiting list for a heart transplant lived longer than those who were not.

the 1990s, the number of people who have been infected with the virus has increased significantly. In 1990, there were only 100 cases reported in the United States. By 1995, the number had risen to over 10,000. This increase is due to a number of factors, including the fact that the virus is now being spread by a wider range of people, and the fact that the virus is now being spread by a wider range of people.
